

Sanat Kumara Call – Cyclopea Novena

**In the name Brahman, in the name I AM THAT I AM,
Sanat Kumara, Elohim Cyclopea and Virginia, God Surya,
Archangel Michael and Faith, K-17 and the Cosmic Secret
Service, Guru Ma and Lanello, take command of:**

- The healing of the economy at the personal, organizational, national and planetary levels.
- For the exposure of all false-flag events and terrorist attacks on America and the nations of the world.
- Beloved Seven Mighty Elohim, we call for “an intensification of Light in the chakras of all who can receive it.” We call for the lowering into and through us of the healing that is needed in the cities and in the earth. Let every building and molecule of matter receive the recharge of Light. Let the economies and the cities be revived and rejuvenated by the power of Elohim! We call for a grid of light to be built around each one of us who maintains this 40-day vigil, that we might magnetize greater light to swallow up the darkness.¹
- Beloved Cyclopea and Virginia, “send forth needle rays” through the All-Seeing Eye of God “into the cause and core of the destructive ones.”²
- Beloved Archangel Michael and Faith and the Mighty Blue Eagle from Sirius, establish a mighty shield of protection around every city and town in the United States and the world, especially the chakra cities, Boston, New York, Washington, D.C., Chicago, Detroit, Los Angeles, Miami, the secret-ray chakras, including the one at the foot of Cheyenne Mountain, all infrastructure, our communications, power, food and transportation networks. Take command of physical, psychotronic and energy weapons and all vulnerabilities in our forcefields.

Let this call be executed by the legions of light according to the will of God. Sanat Kumara, not my will but thine be done!
